PLASTIC HINGED CONTAINERS

Karat<sup>®</sup> plastic hinged containers have a wide variety of applications in the food industry. PET hinged containers are made from crystal-clear plastic that allows for easy visibility. The PET containers are crack resistant with a typical temperature range of -10°F to 120°F. PP hinged containers feature a sturdy construction with pull-lock tabs and 4 vent holes that allow steam to escape for hot, fresh food or microwaving.
